

Our Ambitions Accelerates Time University president Meets Website Administration

Having achieved advanced and distinctive centers among international universities and universities of Arab States and the Middle East, and after the Website becomes an important part in education and the university administration and through the measures and initiatives that the site did to coordinate , organize and display the work in general , so it was inquisitive to maintain the top and progress which is our concern at the beginning of the meeting with Prof. Dr. Alaa Abdul Hussein, head of Baghdad University, where he began his speech by asking for a plan to make the Website in deeper access to compete with the major international universities that university president is looking forward to make our university equal to them , although he has expressed his admiration of the website and the new and advanced assessments, but one of the ambitions that we seek greater than we are in, because our university is not like other universities, but is unique if compared with other universities, especially because it was and is still the focus of everyone's attention at home and abroad, which is why we have to be according to Advanced evolutionary approach, stressing the importance of the websites in the development of education globally and to enjoy the great potential for education, in the dissemination of curricula, data and knowledge, science and rigorous scientific and quick manner, to verify the cognitive acquisitions.

Presidency of Baghdad Congratulates the Christians

Because the university is part of the society it participates the occasions and congratulates the Iraqi society in all festivals and occasions.

The presidency of Baghdad congratulates kindly all the believers of Jesus (peace be upon him) and our Christian brothers in Iraq on the occasion of the birth of Jesus (pbuh) and the beginning of the new year praying God to maintain his blessings on our Iraqi people with all its parts and taking the wisdom and the constructive ideas from our humanitarian symbols to build our dear country and raising it towards the top.
