

University of Baghdad Embraces University of Maysan

Under the strategic plans of our university which seeks to provide its expertise and capabilities, to put it in the service of the country under the slogan that the university arose "the university is in the service of society" the University of Baghdad held a developmental workshop for media men of the University of Maysan. In one of the most important demonstrations of scientific development of websites, the university has sent a team of experts website to the University of Maysan for a joint work in upgrading the website of the young University of Maysan which emphasizes its eagerness to progress and develop with its media staff, specifically in the field of electronic sites that form the basis of information in the world, especially after the sites spread widely all over the world.

Prof. Dr. Alaa' Abdullhussain President of the University of Baghdad was keen that the university offers all its capabilities and expertise as a step for the advancement of digital media in all Iraqi academic institutions, as well as government institutions .

The website team accompanied the workshop at the University of Maysan and continued all curricula and paragraphs made during the course, where Prof. Dr. Sabih Hamoud Al-Tamimi, head of the University of Maysan received the delegation of Baghdad University for holding the workshop, which consists of Prof. Dr. Abdulbasset Salman, editor of the website and assistant teacher engineer Bassim Hamid Director of website and programmer Raed Hussein, and the reception was intimate and pleasant , particularly the president of the University of Maysan has welcomed the experts of Baghdad University and expressed his overwhelming happiness of the effort of Baghdad University and its cooperation with the University of Maysan in the field of Media Development, to gain experiences and competence in the development of sites formations of the university. Dr. Sabih al-Tamimi expressed that the University of Maysan is going on according to great strategies to expand the university after it had suffered a lot to get support to expand and it is now experiencing a kind of a large and formidable development , especially after it got the direct support of the Minister of Higher Education Professor Ali Adee, to expand to 12 colleges after the entire governorate was limited to only one institute for teachers, for almost half a century. It is now experiencing an academic progressive revolution and with the efforts of the people of the governorate , scientists and experts, especially the governorate embodies the finest scholars and thinkers, writers and creators.

Dr Abdulbasset Salman delivered extensive lectures in the field of text editing of the website and the field of photography and graphic , as well as in the field of technological development communication, reviewing a number of scientific sources and citations, presentations and means of education and advanced and modern training in the workshop, as well as instructor Bassim Hamid delivered intensive and serious lectures in organizing entities of electronic sites and designing , programming and administration of sites, and also programmer Raed Hussein has arranged and organized the workshop and coordinating with the University of Maysan. A workshop witnessed a large coming but special attention from the University of Maysan, particularly by Dr. Hamid Fadhil scientific assistant of university president who initiated the support and the assignment of the workshop and receiving the delegation of the University of Baghdad, ordering to provide all the possibilities that would achieve the progress of websites. Dr. Adel Abdullah ,Dean of the college of Engineering, University of Maysan, attended and participated the workshop and who mocked the possibilities of the college of Engineering and laboratories and its scientific halls , for the success of the workshop, as well as Dr. Jafar Al-Kaabi, Dean of the college of Pharmacye with many of the mediame and employees of the University of Maysan attended the workshop.

The audio- visual media in the governorate of Maysan has focused and covered the workshop in the media, after the workshop received a large attention and interest of the employees of the University of Maysan to develop expertise and competencies, in the acquisition of skills and innovations in the field of web sites, and all the participants were excited in the course and expressed overwhelming happiness in holding this workshop, which formed an important opportunity to develop the potential of the university media The workshop witnessed serious and constructive discussions and many interventions that stressed the excitement and the desire of the participants in the acquisition of knowledge, and develop their abilities and skills in the field of graphic , administrating and designing the sites and text editing for the website, also many of the agencies and scientific institutions in Maysan initiated to contribute to this workshop or participate to achieve the acquisition of knowledge in the development of staffs . Dr. Abdulbasset Salman expressed during his lectures that the University of Maysan is witnessing a great scientific revolution after it was able to expand the colleges, to lift the sons of Maysan and provide them opportunities to complete their undergraduate degree in Maysan, and that the coming months will see clear progress of the University of Maysan, particularly since the university is taking precedence according to strategies.

Professor Bassim Hamid explained that the new image of the university is more optimistic and advanced, and the horizon heralds a massive progress of the University of Maysan, stressing that the university has a set of scientific potentials, and that the workshop will be the stage for the start of the university towards the summit gradually to gain its maturity and the ancient history of Maysan, which is a matter of pride for all Iraqis, being the first human history of mankind extended to more than 6,000 years, known as the Sumerian civilizations or civilizations of Mesopotamia, the website team accompanied the workshop and documented it with a set of photographs .

Our Scientists are building the Country Knowledge Day ,the civilization and the humanity

They were and are still candles that light up the passage , for their service to the society , the country recompenses them with a majestic tribute honouring that befit their accomplishments and creations , their eternal humanitarian works.They are the Scientists of the country , who are building the country ...

In recognition of their humanitarian role the Ministry of higher education confirms their honouring and celebrating them annually on an important and significant occasion that is attended by the elite in the society, as an intellectual, moral and even material expression. In a big and majestic ceremony that befits the pride of Iraqi scientists, Ministry of Higher Education and Scientific Research honored a large number of scientists and thinkers of Iraq at Iraqi universities. Dr. Ali al-Adeeb, Minister of Higher Education and Scientific Research attended the ceremony, as well as Prof. Dr. Alaa Abdul-Hussein president of the University of Baghdad, with the other presidents of Iraqi universities and deans of colleges and wide range of scientists, intellectuals and all Iraqi university students, as many of the scientific, political, diplomatic characters attended the celebration with a wide and great coverage of Iraqi and foreign media because of the importance of this celebration .

The celebration has begun with a verse of the Glorious Quran, and then the anthem was played by college of Fine Arts band at the University of Baghdad with a coral of the University of Qadisiyah, and then patriotic and highlighting science songs was chanted , then the Minister of Education delivered a speech welcoming Iraqi scientists, presenting their immortal humanitarian role in building the human civilization, stressing the desire of the Ministry of Education in their assessment and honouring annually with what they had accomplished and achieved for the progress of the society and humanity as a whole. The directorate of Research and Development at the Ministry of Higher Education and Scientific Research has prepared this big celebration and in coordination with the University of Baghdad, at the Hall of al-Hakim at Baghdad University -Al-Jadiriya, to be one of the most important celebrations which i the Ministry of higher Educations is proud of. Dr Mohammed Al-Sarraj General Director of the directorate of Research and Development at he Ministry of Higher Education and Scientific Research stated that the ministry is keen to record its thanks and deep appreciation to the Iraqi distinctive university professors with their academic researches and their intellectual efforts , and within a context used in our directorate, so as to urge professors to submit their humanitarian and intellectual bestowals within the academic filed and scientific environment, in order to rise up the society to draw a civilization tantamount to the immortal civilization of Mesopotamia .The website team was keen to cover this ceremony and has documented it with a set of photographs.
