

Our University Joins the International Federation of Medical Students' Association

As the university president is much more interested to support the outstanding students and expand the field of knowledge and intellectual and academic areas of students, Dr. Alaa' Abdulhussein took the initiative to honor a group of genius students ,College of Medicine, after they managed to join officially the "International Federation of Medical Students' Associations with the support and patronage of the Presidency of the University and Dean of the college of Medicine, where they could satisfy and apply all regulations , the conditions and requirements to join this organization. Let it be known that this is the first time for Iraq to join such worldwide organization which oversees and supervises more than two million doctors and specialists together with those contributors in the humanitarian Medicine and human science, which will give the chance to students of medicine in the world to cope, look and go into Medical Science and all disciplines. Prof. Dr. Alaa' explained for the website team that the university is keen to honor the outstanding students in order to create a spirit of competition and perseverance among students to improve the science, he also stressed the need to honor each scientific activity that serves the scientific course of the university. He has instructed during the University Council holding that the University Council should adopt all distinguished students' projects and honored them, so as to raise the morale of the students and guiding them towards progress, excellence and intellectual development. Prof. Dr. Mohi Kadhem ,Dean of the college of Medicine presented a gift to the students for their excellence , he also thanked Prof. Dr. Alaa' Abdulhussein for his great sponsorship to the outstanding students and their

support to achieve coping with the most prestigious colleges and universities in the world. Then ,the honored students offer their thanks to the President of the University and the University Council and expressed their great happiness for this support and assistance, explaining in a brief speech the importance of joining this world organization, which would improve the global connectivity with their peers in universities in the world as they keep in touch with the Association through their websites and through their periodic attendance of the meetings of the organization, where its headquarter is in France which provides students with the latest advanced scientific sources and other data of the latest medical equipment and health supplies. The website team has attended the University Council and documented the honor of the President of the University for the outstanding students.

"Harvest of the University" monthly program - view also on YouTube

www.youtube.com/watch?v=izS3AbJdAmY

With the grace of Almighty God and the efforts of the good in our university, the action is done with the new Office of the university satellite channel at Baghdad University. The first episode of the television program "harvest of the university" is displayed on the university channel that belongs to the Ministry of Higher Education and Scientific Research, which dealt with the latest developments and activities and the activities of the University of Baghdad. This episode has been produced within international standards of broadcast, signal, image and sound purity with the follow-up and direct support from Prof. Dr. Alaa' Abdulhussein Abdulrasul, President of the University who instructed that the episode should be distinctive and worthy of the level and status of the prestigious Baghdad University. He also recommended to document and display the scientific activities, innovations and world innovations carried out by the university and display all the intellectual and creative products of members of the university: professors, researchers, creative students and the talented. He also recommended that these creative things should impair the media interest that is comparable to the equivalent media adopted by the other universities, as well as he instructed to form a specialized scientific committee of leading experts in the computer Prof. Dr. Ghassan Hamid, Director of the Computer Center; in the media, Dr. Kadhem Omran; in the production film Dr Abdulbassit Salman and in the quality assurance, instructor Wisam Abid Shukr Mahmood, director of quality assurance and university performance, supervising the production

and displaying of TV episodes on Channel university. The University president also instructed to have interest with the scientific and intellectual activities with the Ministry of Higher Education and Scientific Research and give them priority, stressing that the Iraqi society is waiting more from our university. university president in the television and filming media and in a meeting with the administration of the Office of the university channel University of Baghdad and the Website team ,he focused that the priority of publishing should be to innovators , inventors, publishers of scientific research of the impact factor, and try to mesh the university products with the movement of the market to support and serve the society with all the possibilities of the university and its intellectual products. The university produced more films about its varied activities. It is now preparing for many programs in coordination between the Director of the Department of Information, Dr. Kadhem Omran who showed all the potentials of the department to produce a lot of films that will appear soon. It has also been coordinated with Engineer Basm Hamid, Director of Website and Dr Abdulbassit Salman ,Director of Office of University Channel at the University of Baghdad, for the preparation of texts and writing the scripts for the television episodes which will be presented in both Arabic and English, hoping that it will be displayed in French and German in the near future and then in Spanish. The work gets started with the office of the university channel as a first stage and with limited possibilities inside the university, without the benefit of any expertise or possibilities from outside the university, where the university president instructed that the university should be the first artery for each media experts especially since our university has supplied Iraq for years with all the

experiences of press, media, television and film and computer expertise and technical editing and production. The first episode earned the desirability of a lot of specialists when displayed and many of the members of the University Council have shown great admiration and praising on the first episode who saw the program and by specialists and experts in the television, film and computer media experts and professionals of graphic and computers, emphasizing the excellence of Baghdad University in the creative field. The website team followed up the activities of the satellite university library at the University of Baghdad and has documented some of the data and photos :
