

University of Baghdad seeks to decoding traffic jams

Assistant Rector for administrative affairs of University of Baghdad, Prof. Dr. Riadh Khalil khammas held an expanded meeting with the General Directorate of traffic of Rusafa, Baghdad the General Najim Abd Jaber, the second presidential brigade' commander as well as a number of interior officers concerned to discuss the causes of congestion in Karada especially the roads leading to University of Baghdad and to find appropriate solutions so that to reduce the density of cars and traffic jams in rush hours. General Najim Abd Jaber stressed the need for cooperation and coordination between the competent security organs at the ministries if defense and interior as well as the presidential brigade. It is worth mentioned that several proposals were put forward during this meeting by University of Baghdad and Nahrain University which were welcomed and gained the approval of gentlemen assembled in line with the directions of the minister of higher education and scientific research, Prof. Dr. Abdul Razak al-Issa in this field.

Flag of University of Baghdad adorns the building of University of Mosul

Dean of the faculty of media at University of Baghdad, Prof. Dr. Hashim Hassan Al-Tamimi with a group of college students visited University of Mosul after liberating it from ISIS terrorist groups. The dean stated that "within twenty four hours, we were able to reach the city of Mosul where we visited the liberated areas there and conveyed thousands of messages of love and harmony of college students as well as granting symbolic gifts to our security forces and children of Nineveh. Al-Tamimi said also that the flag of University of Baghdad was raised over University of Mosul in a beautiful and touching ceremony attended by university professors, and administrative members and security forces.

Abbasid threshold honors its graduates at University of Baghdad

The holy Abbasid threshold has honored University of Baghdad and its graduates for the academic year (2015-2016). The delegation of University Baghdad was headed by Rector Assistant for scientific affairs Assistant Prof. Dr. Osama Fadhil Abdul Latif while Sheik Ahmed al-Safi honored a number of the university graduates by granting certificates of appreciation and gifts in kind. Sheik Ahmed al-Safi addressed our graduates by stressing on need to work hard to service Iraq since they represent the strategic depth for the future and the history of our great country and their stand today represent a step for defeating the enemies of Iraq and the Islamic nation.

Joint agreement between the ministry of industry and Al-Khwarizmi College of engineering to inaugurate (SCADE) laboratory

Dean of Al-Khwarizmi College of engineering Prof. Dr. Alla Kareem Mohammed and his associate for administrative affairs Dr. Sami Dawoud Salman received a delegation of engineers and technicians from the general company for hydraulic industries which is one of the formations at the ministry of industry and minerals to cooperate in establishing a laboratory specialized in controlled hydraulic and electronic systems including control systems and synchronization (SCADE). The two sides stressed the importance of mutual visits to develop scientific research and exchange of scientific expertise. For his part the head of department of mechatronics Dr. Furat Rida Hussein provided a comprehensive explanation about the nature of the study, the inputs and outputs of education and labor market after graduation, postgraduate studies and student graduation projects during a tour accompanied by the administrative associate to the scientific laboratories.
