The conference witnessed the attendance of eminent personalities from the ministries of higher education and health, notably the representative of the minister of higher education and scientific research, Prof. Dr. Fouad Kassim, Rector Associate for scientific affairs at University of Baghdad, Prof. Dr. Osama Fadel Abdul Latif, Advisor of the minister of health, Prof. Dr. Abdul Amir al-Mukhtar, Captain Doctors, Prof. Dr. Fakhri al-Fatlawi as well as deans of Iraqi faculties of dentistry and teaching staff.

The Canadian Health Sciences Institute honors the dean of genetic engineering institute with the highest international medal

The Canadian Institute of Health Sciences awarded the dean of genetic engineering and biotechnologies institute at University of Baghdad, Prof. Dr. Abdul Hussein al-Faisal with the highest international medal granted to senior researchers in Iraq. This tribute came in view of his efforts and valuable contribution in the success of Cancer Conference held recently in Basra where Dr. Abdul Hussein al-Faisal presented a paper entitled "discussion of strategies to combat and treat cancer & the role of partners".

President of University of Baghdad as Chairman of the European project for energy building

Deanship of the faculty of arts, University of Baghdad organized a workshop entitled "Theoretical framework for the EU energy building project" in cooperation with University of Bologna, Italy which was chaired by president of University of Baghdad, Prof. Dr. Alaa Abdul Hussein Abdul Rasool. The workshop witnessed discussing the stages of EU project implementation which included the departments of archeology and history at the faculties of arts in Baghdad, Qadisiyah and Kufa universities with the aim of holding courses and implementing fellowship programs for professionals in this regard, updating curricula so as to combine theoretical information and fieldwork. The attendants addressed also matters related to future visions and objectives such as establishing an international network of partners to support joint cooperation and continuation of activities, means, criticism and evaluation. It is worth mentioning that this event was attended by dean of the college and his associates, heads of departments of archeology and history, representative of Baghdad Governorate Council and a number of professors at the college.

University Activities

-Course on development of accounting staff of the ministry of health at the college of administration and economics

-Department of electrical engineering discusses students' research projects

-College of fine arts presents theatrical shows

-Faculty of engineering discusses poor management of construction projects

-College of Ibn al-Haitham participates in the International Conference on bio-safety

-Symposium on quality control on the quality of engineering tests at the college of engineering

-Lecture on American opinion polls at the department of journalism

-Lecture on the role of the citizen in preservation of environment at the college of Ibn al-Haitham

-College of nursing discusses the psychological effects of obesity on children

-Faculty of medicine participates in a joint workshop on medical education

-Course for preparation of junior trainers (T.O.T) at Al-Khwarizmi College of engineering

-Seminar on student projects at Al-Khwarizmi College of engineering

-Instructor from the college of engineering participates in an international conference in Britain

-College of agriculture participates in World Flower Fair

-Symposium on mouth health at the department of oral diagnosis

-Lecture on plagiarism at the faculty of medicine

-Faculty of medicine participates in the 10th conference on men's infertility at Nahrain University

-College of dentistry discusses bone restructuring and oral diseases

-Faculty of science publishes a new issue of Iraqi Journal of Sciences

-Workshop on information technology and computer programming at Al-Khwarizmi College of engineering

-College of nursing holds its 2nd conference for postgraduate studies

-Workshop on music and tension in hospital operations lounge at Al-Kindy College of medicine

-Faculty of physical education and sports science registers a new patent

-Center for urban planning signs a scientific agreement with ISOCARP

-College of education (Ibn al-Haytham) organizes the Five Stars Football Championship

-Faculty of engineering discusses wavelength design based on resonance

-Conclusion of the football championship at the faculty of science

-Faculty of fine arts inaugurates its annual festival for student projects

-National cancer research center organizes its first training course on the use of statistical package program

-Symposium on ITO at al-Khwarizmi College of engineering

-A novel by a professor from the college of languages published in foreign publishing houses

-Students of engineering present models for known Iraqi building facades

-Seminar on chemical and biological safety at the faculty of medicine

-Symposium on MRSA bacteria at the college of nursing

-Course on human resources management at the college of administration and economics

-College of engineering discusses the problem of oil-water production
