

University of Baghdad supports the Iraqi brave army

After the country has been encountered threats from enemies and terrorists in our beloved city Mousal, the students and the staff of the university of Baghdad compete to volunteer with their brothers in the military forces to clean up the Iraqi lands from the foreign terrorists. A group of students with faculty members and the staff go immediately to response to the call of defending the country. Mr. Ali A l-Adeeb, minister of higher education and scientific research has paid a visit to the dormitories of the students of Al-Mustansiriya university and has urged them to participate in defending the country. His Excellency appeared wearing his military uniform in the meeting of the council of ministers in order to raise the spirit of the students and the staff of the universities and the ministry of higher education and scientific research. Dr. Alaa' Abdul Hussein has explained to our website and the university channel in an exclusive interview while he was visiting the colleges and inspecting the progress of the examinations that the university is ready to support our military forces and we stand in one trench with our army and country to defend our country, our mission is that the country is very well and our work in the university is not and will not stop. Knowledge continues and there is no return to the darkness and ignorance that the terrorists look for and try to destroy the success, development, safety and reputation of the country. We promise from the educational trench that our bloods and souls are in redemption to the country and we are about to have a great campaign to donate blood with our brothers. Assistant professor Dr. Alaa' Mohammed Kareem, the scientific assistant of presidency of Baghdad university, said to our website in an interview for the university channel that the scientific efforts are going on in our university to be a message we directed to the enemies of the country and the terrorists in

Nineveh, the university and science stand together in support of our brave army against terrorists, confirming that our university is ready to volunteer in the ranks of our brave army and that our scientists, our students and all of our staff perform their scientific and administrative roles at the university fully organized and coordinated as well as they are ready to meet the call at any time and our efforts will not stop. Prof. Dr. Hussein Yousef, the administrative assistant has instructed to form a campaign to volunteer in support of the Iraqi army, explaining that the country will remain towering by his sons of scientists, students, and all staff, and our humanity message will continue and will not stop that our blood and our souls are of redemption to the soil of our country, its prestige and ancient civilization. Instructor engineer, Abdul Kareem Mounir, director of the office of the president of the university has contributed and recited an enthusiastic poem in support of the army and our dear country. He explained to our website that this crisis is not new to Iraq and we will overcome it by our strength and our unity in confronting all the brute forces that look for segregation, sectarianism and ignorance, and also explained that demonstrations in our university has come as an implied expression to the aspirations of the society, the fact that the university is in the service of the society, a slogan which was raised in support of the society and its development. The website team has followed up the ceremony and documented it with a set of photographs.

University of Baghdad adopts the electronic application of postgraduate studies

University of Baghdad has begun working with the electronic application of postgraduate studies by receiving the applicants of the academic year 2014-2015 which started on 1st of July and will end on 14th of next August on the fields that the ministry of higher education and scientific research has identified. Dr. Alaa' Abdul Hussein, president of the university, said "After a research study that the presidency of university of Baghdad went through, modern programs have been adopted in the electronic application of the applicants to get M.A and Ph.D degrees" referring to, "a coordination has been made with the computer centre of the university and the department of postgraduate studies to come out with the electronic application which will serve the applicant as well as the university simultaneously". The assistant of the president of the university of the scientific affairs, Dr. Osama Fadhil Abdul Latif has explained that it is possible to apply electronically by the (internet, offline) of the open specializations in the colleges and institutes and according to the central regulations and directions which require the applicants to come to their colleges bringing their documents and filling their personal and scientific information forms by themselves in the forms of the special electronic programs and in special computers that the colleges have allocated for this purpose which are linked to unified and internal net, then the information will be examined and then be adopted officially among the other applications. In addition ,these data will be examined by special computer programs, after that the results will be announced in the same electronic way and through the website of the university. University of Baghdad is expected a large number of applicants

this year because of the scientific level that our students own. It calls the applicants to follow up what is published including the updates and the related matters of applying through the website of the university. The central directions identify the 7th of September as a date of taking the competition of the applicants and the next day 8th of September for English examination, whereas the 9th of September will be for the computer efficiency where the university has opened computer laboratories for this examination. The applicants of the postgraduate studies referred to this step in statements to the website of the university and the university media, " this step can be successful due to its technical and technological extents and can substitute the paper transactions which were followed in the past, besides killing the routine that is followed in the government directorates". It is noted that university of Baghdad is considered the first Iraqi university that adopts the electronic application of the postgraduate studies, in addition to the announcement of the results of the undergraduate and postgraduate studies through the website in order to facilitate the difficulty of coming among students especially those from outside Baghdad who can know the results through the websites of their colleges. Furthermore, this way motivates them to use modern techniques and to cope with information technology that the university makes it available.

Plan of Admission on the admission field of the academic year 2014-2015 for all formations of our university

Regulations of application and admission of the postgraduate studies of the academic year 2014-2015

Maa'da Al-Rahman for the displaced students and prayers for supporting our brave army

With blessed prayers all of our students and professors with the minister of higher education and scientific research pray for our brave army who is fighting the terrorists. His Excellency, the minister, has called during a blessed evening to support and sympathize with the displaced students from Mousil, Kirkuk, Al-Anbar and Diyala. A large fast banquet table "Maa'da Al-Rahman" (a fast free banquet table that held in Ramadan to the Muslims) has been held in the gardens of the university of Baghdad with the presence of the president of the university of Baghdad, Prof. Dr. Alaa' Abdul Huseein, Prof. Dr. Nabeel Al-A'araji, the head of the supervision board in the ministry of higher education and scientific research, Prof. Dr. Riyadh Khalil, the administrative assistant of the president of the university. The minister, Ali Al-Adeeb has met the students and listened to their demands and what their families have encountered of the aggressions from the terrorists and he has explained a lot of procedures that our government has taken to support and back up the displaced families from the critical regions. In addition, the minister has undertaken an open dialogue with all the students explaining that the government has devoted 5000000000 dinars for the displaced families and has made a comfortable home for them especially in this holy month which coincides with summer. The ministry has recommended to open the dormitories for the displaced families, moreover, there is a second attempt for the failures and those who couldn't take the first attempt final examinations because of the terrorism. The government is also determined to take special care of all the displaced families. The students have thanked and been very grateful to the minister and the president of the university of Baghdad for their interests and

Presenting all the facilities for them in this critical situation. Prof. Dr. Alaa' Abdul Hussein has explained that the university opened all its dormitories for the students who encountered threats. The instructions have been given to make the fuel available for the electric generators of the dormitories, besides, instructions have been given to give awards for the displaced students in addition to the special awards of the students. We have taken all the official procedures to support the students including the opportunity for the failures to take the second attempt. Thus, we call our students to study hard. The mass media and satellite channels have been interested of this blessed occasion and covered it. Our website has documented this blessed evening with a set of photographs.
